

# BANDI BRAHMMA REDDY

23eg110c07@anurag.edu.in | (+91) 7995277101

## OBJECTIVE

I'm a BTech Data Science student proficient in C, Python, and Java. I have a strong interest in data analysis and software development. Eager to learn new technologies, I aim to apply my skills to solve real-world problems. My goal is to contribute to innovative solutions and grow continuously in Data Science.

## EDUCATION

Bachelor of Computer Science-Data Science	Expected 2027
Anurag University	CGPA - 7.49/10
Intermediate	2021-2023
SRI CHAITANYA KALASALA, Tarnaka	MARKS - 848/1000
School	2021
SRI CHAITANYA HIGH SCHOOL, Boduppal	CGPA - 10/10

## PROJECTS

### Virtual wardrobe app

Created a Virtual Wardrobe app for organizing and managing clothing items. Features include uploading and categorizing clothes, generating outfit suggestions, and tracking usage. Utilized React Native for development and Firebase for storage.

### AI-Based Business Idea Generator

Developed an AI-based platform that generates unique business ideas by analyzing marketing trends, user preferences, and emerging technologies. The tool offers personalized, data-driven business concepts with feasibility analysis and market insights, helping entrepreneurs and startups identify high-potential opportunities.

## TECHNICAL SKILLS

**Languages:** C, Python, Basic Java, SQL, Basic DSA, HTML, CSS

**Data Analysis & Visualization:** Excel, Power BI, Tableau

## ACHIEVEMENTS

- Certified in Introduction to Cybersecurity course by Cisco
- Certified in Cyber Threat Management course by Cisco
- Certified in Data Analytics Essential course by Cisco
- Certified in Design Thinking by Infosys Springboard
- Certified in Python by Infosys Springboard
